13. [] Guy McConnell, Clerk, Senate Appropriations Committee, called and said that Chairman McClellan would like the Director's intelligence briefing to be given only to the Intelligence Operations Subcommittee. McConnell asked if we would recommend a date for this briefing between now and 10 October. He also indicated that Senators McClellan and Young were interested in getting more information from the Director on the program covered in the most recent reserve withdrawal.

Later in the day, McConnell called to say Senator McClellan would be available this Thursday, 27 September for the briefing and wondered if this would be acceptable to the Director. After checking with the Director I advised McConnell the Director would be happy to meet with the Subcommittee on Thursday. At this time McConnell suggested that Mr. Colby might want to bring with him some of the background documentation for the sensitive project covered by the reserve withdrawal.
